

Upton Village Hall – “Living with COVID”

From 24th February 2022, official restrictions have been lifted and we are now “living with COVID”.

However, to help protect vulnerable members of our community, it is still recommended that :-

Face coverings are worn in “**confined spaces**” such as our kitchen and toilet areas, and **at busy or crowded** events

Eating and drinking take place **sitting down** if possible

Social distancing between households is considered

Ventilation is maintained during a booking (internal doors may now be closed between bookings, to help keep the main hall warm)

Please continue to use the **hand sanitiser**, and/or wash hands frequently.

Thank you for your co-operation.
